WORK SUMMARY

- **Frontend Developer (React.js Specialist — 3.5+ Years Experience):** Passionate and detail-oriented front-end developer with strong expertise in building responsive, interactive, and performance-optimized web applications using **React.js**, **JavaScript**, and modern UI frameworks.
- **Frontend Development UI Expertise:** Skilled in designing and developing reusable React components, managing application state using **Redux** and **Context API**, and integrating RESTful APIs for dynamic, data-driven user experiences.
- **Performance Optimization Responsive Design:** Experienced in improving load times, optimizing rendering performance, and ensuring pixel-perfect UI/UX across devices using **React Hooks**, **Code Splitting**, and **Lazy Loading**.
- **Technical Skills Tools:** Proficient in **React.js**, **JavaScript (ES6+)**, **TypeScript**, **HTML5**, **CSS3**, **Tailwind CSS**, **Bootstrap**, and **Git**. Knowledgeable in backend integration using Node.js/NestJS and familiar with CI/CD tools like **Docker**, **Jenkins**, and **AWS Amplify**.

EXPERIENCE

CodeBlaze

Oct 2024 – Nov 2025

Frontend Developer — ConnectedLife (Healthcare Project)

Pune, India

- Developed interactive and responsive UI components using **React.js** and **TypeScript**, improving patient data visualization and application usability.
- Integrated REST APIs and WebSockets for real-time patient data updates, enhancing system responsiveness and reliability.
- Collaborated with backend teams using **NestJS** and **Node.js** to optimize data flow between frontend and server.
- Implemented state management with **Redux Toolkit**, improving code maintainability and reducing re-rendering overhead.
- Optimized rendering performance through lazy loading, memoization, and efficient component design, reducing page load time by 30%.

JetSynthesys

May 2024 – Oct 2024

Software Development Engineer I — React Frontend

Pune, India

- Built modular and reusable React components for interactive dashboards and live gaming analytics.
- Implemented real-time UI updates using WebSockets and React hooks, enhancing player engagement.
- Collaborated with designers to deliver visually consistent and responsive layouts using **Tailwind CSS** and **Bootstrap**.
- Worked on performance profiling and optimized component rendering, resulting in 25% faster UI updates.

AA Gaming

Aug 2022 – Apr 2024

MERN Stack Developer — Frontend Lead

Pune, India

- Developed interactive user dashboards using **React.js** and **Redux**, streamlining content management and user operations.
- Improved overall UI/UX through responsive layouts and accessibility enhancements (WCAG compliance).
- Optimized API consumption and data rendering pipelines to deliver real-time player statistics and leaderboard updates.

AA Gaming

Jan 2022 – Jul 2022

Web Development Intern

Pune, India

- Assisted in building front-end interfaces using React.js and integrated REST APIs for live game data visualization.
- Worked with the design team to prototype new layouts, improving responsiveness across mobile and desktop.

SKILLS

Frontend Technologies: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery, Redux, Context API, AJAX

Frameworks & Tools: Next.js, Node.js, NestJS, Git, Docker, Jenkins, AWS Amplify, AWS S3

Performance Optimization: Code Splitting, Lazy Loading, Memoization, Virtual DOM Rendering, Lighthouse Auditing

Databases (for API Integration): MongoDB, MySQL, Redis

EDUCATION

Bachelor of Engineering
Pune University CGPA 8.26/10

Pune, MH
Aug. 2017 – July 2022

KEY FRONTEND PROJECTS

ConnectedLife – Healthcare Monitoring Platform (HealthTrackSG)

Oct 2024 – Present

- **Role:** Frontend Developer (React.js + TypeScript)
- **Technologies Used:** React.js, TypeScript, Redux Toolkit, Tailwind CSS, REST APIs, Node.js, NestJS, AWS Amplify
- **Description:** Built and optimized the front-end interface for a healthcare web application that tracks patient vitals, daily activity, and sleep metrics in real-time.
- **Achievements:**
 - **Responsive UI Development:** Designed reusable, responsive React components using Tailwind CSS, ensuring consistent design and faster development cycles.
 - **Real-time Data Visualization:** Integrated live APIs and WebSocket streams to display patient vitals dynamically with charts and alerts for anomalies.
 - **State Management:** Implemented efficient global state handling using Redux Toolkit, reducing re-rendering and improving data flow reliability.
 - **Performance Optimization:** Improved initial load time by 30% through lazy loading, code splitting, and React.memo optimizations.

Jet-Play Gaming Dashboard

May 2024 – Oct 2024

- **Role:** Frontend Developer (React.js + WebSockets)
- **Technologies Used:** React.js, Redux, WebSockets, Tailwind CSS, Node.js, MongoDB
- **Description:** Developed interactive admin dashboards and real-time analytics interfaces for monitoring player activities and managing multiplayer rooms.
- **Achievements:**
 - **Real-Time Interactivity:** Integrated WebSockets for instant UI updates, enabling real-time communication between game clients and servers.
 - **Reusable Components:** Created modular React components and UI patterns that improved development speed by 25%.
 - **Performance Improvements:** Reduced render latency by optimizing virtual DOM updates and memoizing frequently changing UI sections.

E-Sports Interaction Platform

Apr 2022 – Apr 2024

- **Role:** Full Stack Developer (React.js Focused)
- **Technologies Used:** React.js, Node.js, Express.js, MongoDB, AWS (S3, EC2, Amplify), Bootstrap

- **Description:** Designed and developed a web-based e-sports platform for streaming tournaments, managing player profiles, and enabling interactive spectator engagement.
- **Achievements:**
 - **Dynamic User Interfaces:** Built interactive dashboards and real-time leaderboards using React Hooks and REST API integration.
 - **Improved Performance:** Reduced average page load time by 25% through bundle optimization and lazy loading of React components.
 - **Cloud Integration:** Deployed production builds via AWS Amplify and managed media storage using S3 for scalable content delivery.

PROFESSIONAL TRAINING

PG-DBDA

CDAC Grade B

Chennai, KA

Sept. 2022 – April 2023

SevenMentor Pvt. Ltd

Advanced Certification in MEAN Stack And React.js

Pune, India

April 2022
